The Clutch Compressor tool case was developed in cooperation with one of the leading companies producing special tools: Gedore Automotive. Our cooperation partner is a tool specialist with a global presence in more than 70 countries and with an outstanding expertise in the field of tooling.

The special tools from Knorr-Bremse support you in the following service actions:

- Dismounting the clutch
- Replacing the actuation piston
- Mounting the clutch
- Mounting the output shaft

When maintaining, repairing or replacing complex systems it is essential to use special repair tools to make sure to gain the original condition without any flaws. Without the use of professional equipment, crucial parts like gaskets or guides can be damaged or a substantial amount of extra time will be needed by the workshop.

The new Clutch Compressor tool case fits perfectly to the service strategy of the Knorr-Bremse Clutch Compressors. It is an optimal combination of repair kits and special tools which are needed for a safe, fast and cost efficient service.

The new Clutch Compressor tool case is available as from now!

EVERY VEHICLE TELLS ITS STORY.
